GOLDEN ENERGY OFFSHORE

Ålesund 13.05.2019

Golden Energy Offshore announces its successful delivery of the vessel Energy Empress

Ålesund, 13 May 2019: Golden Energy Offshore Services (ticker: GEOS-ME) (the “Company”) refers to the notice made 30 April 2019 announcing the signing of an addendum with Nantong Rainbow Offshore & Engineering Equipment Co., Ltd. (“ROC”) regarding the purchase of the two new build offshore support vessels, Energy Empress and Energy Duchess, of PX121H design.

The Company is pleased to announce that a successful delivery of the vessel Energy Empress now has been completed.

CEO Per Ivar Fagervoll comment as follows: *“We are very excited that we have now taken delivery of Energy Empress. She is now underway to Europe and available for PSV duties. The Energy Empress is very fuel efficient and will meet our clients’ high expectations. It is also good progress regarding the delivery process of Energy Duchess which we expect is being delivered later this month. I thank our very capable team who are working hard to secure the quality we at Golden Energy require and I am confident our clients will find these vessels interesting.”*
